CULLIGAN® SOFT WATER

Portable Exchange Service

Whether or not your community regulates softener use, Culligan Portable Exchange Service is a smart, environmentally conscious way to enjoy all the benefits of soft water.

- Laundry rinses softer, comes out brighter and cleaner, and you use less detergent.
- You'll use less soap, cleaners, shampoo, conditioners, rinses and fabric softeners, saving you money on your cleaning products.
- Dishes and glasses have no soapy film and fewer water spots.
- Plumbing and appliances such as water heaters, dishwashers, washing machines, and humidifiers all work more efficiently. In particular, water heating costs can be significantly reduced.
- Showers and baths feel more pleasurable. Your skin and hair feel cleaner. Even shaving is easier.

Environmentally Preferred Solution

For some in California, Culligan Portable Exchange Service is now the only way to enjoy soft water. To reduce wastewater salinity, some communities have instituted bans on the installation of automatic water softeners. In those cities, Culligan Portable Exchange Service represents an approved alternate water conditioning method.

Surprisingly Affordable

With so many soft water benefits and the convenience of in-home service, you might expect Culligan Portable Exchange Service to be a luxury beyond your reach. In fact, our low monthly rental rates are very affordable, especially when you consider the cost savings of using less energy and cleaning products. You can enjoy the luxury of Culligan soft water without busting your budget.
